

How do you feel the world?

Our senses

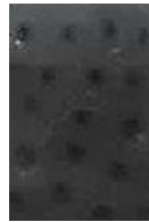

Quiz

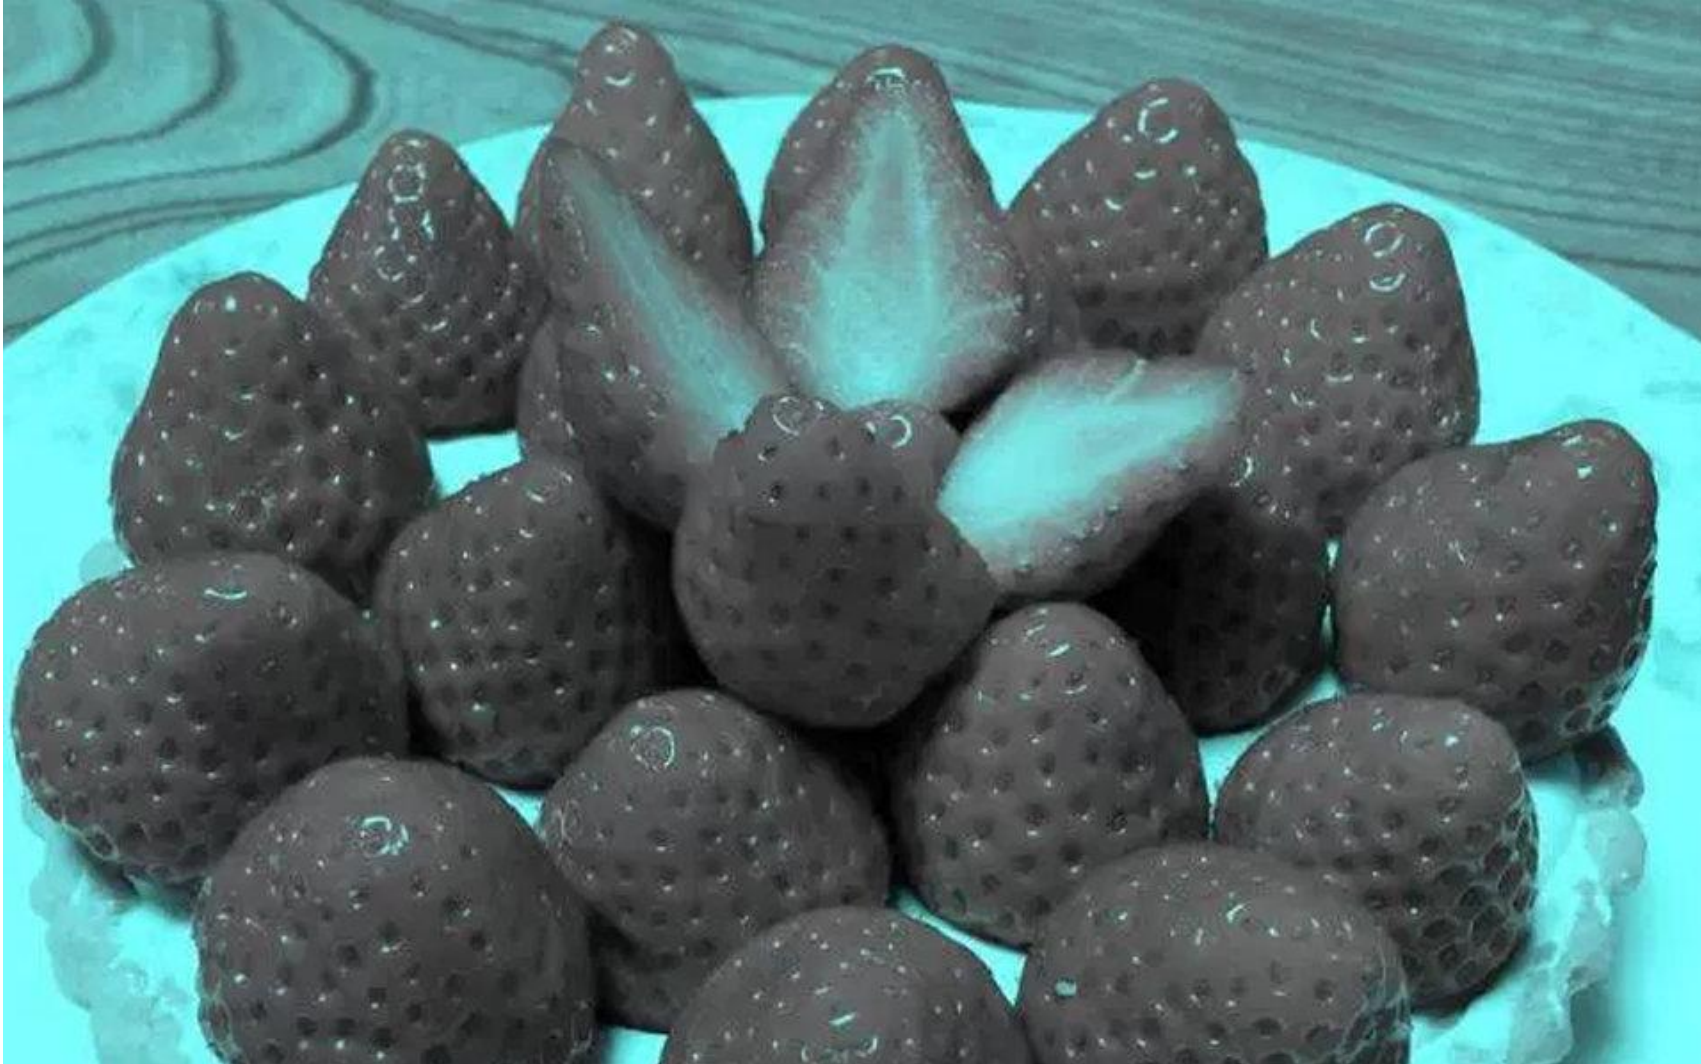

Let us (students) be the senses and transmit signals to the brain (our teacher).

Will the brain understand what do these signals describe?

We learn through our brain

We learn through our brain

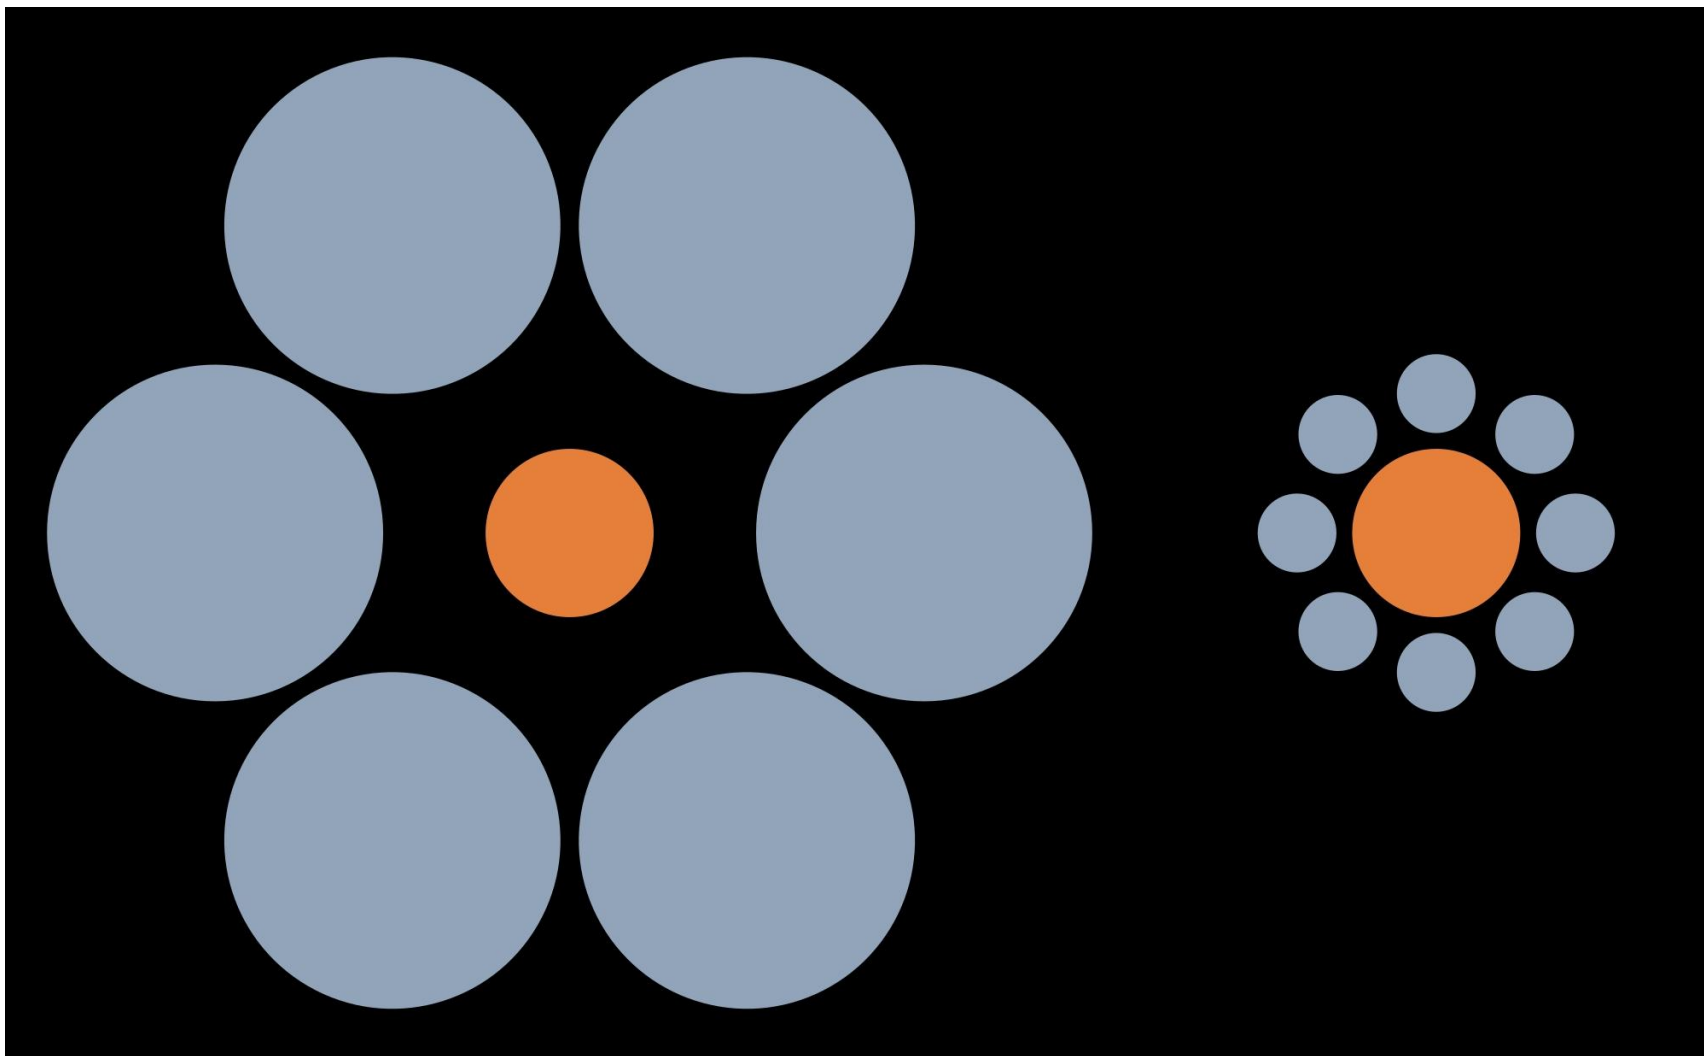

How large is the moon?

How much sensory input can we process?

0:04 / 1:08

What to remember

- Using your senses and brain let's you learn. Focus on what is important.
- Learning will let you travel everywhere.

That's how you will become better humans and may meet your idols!
